The following is an Examiner's Statement of Reasons for Allowance:

The invention is directed to a method of inquiring the capabilities of a target device in a network. The primary reasons for allowance over the prior art of record is that the prior art of record, alone or in combination, does not teach or fairly suggest "sending a response command from a target device to a controller over a network informing the controller if the target device supports an opcode and operands received from the network" in combination with other claimed features as claimed in independent claim 1 and similar limitations in independent claims 6 and 30. Dependent claims 2-5, 7-11 and 31-33 further limit the subject matter of the respective parent claims. If applicant is aware of better art than that which has been on record, he is required to call such the attention of the examiner.

Any comments considered necessary by applicant must be submitted no later than the payment of the Issue Fee and, to avoid processing delays, should preferably **accompany** the Issue Fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance".
